

The American Board of Orthopaedic Surgery's Knowledge, Skills, and Behavior Program (ABOS KSB) for Program Coordinators

*Mona Saniei, MPH – Senior Program Manager, GME & Research
David Elstein, Manager, Education and Communication*

American Board of
Orthopaedic Surgery

*Establishing Education & Performance
Standards for Orthopaedic Surgeons*

ABOS Mission Statement

To ensure safe, ethical, and effective practice of orthopaedic surgery, the ABOS maintains the **highest standards for education, practice, and conduct through examination, certification, and maintenance of certification **for the benefit of the public.****

Privilege of Self Regulation

**What does KSB
stand for?**

ABOS Goal:
provide
assessment tools
for the
measurement of:

- ***Knowledge, Surgical Skills, and Professional Behavior***

The graphic features the ABOS logo in the top left corner, which includes the text "AMERICAN BOARD OF ORTHOPAEDIC SURGERY, INC." and "FOUNDED 1927". To the right of the logo, the text reads "American Board of Orthopaedic Surgery Knowledge, Skills, and Behavior Program (ABOS KSB)". Below this, three colored boxes represent the program's components: a green box for "Knowledge" with the text "Linking of the OITE and Part I Examination"; a dark green box for "Skills" with the text "Residents receive real-time feedback on their surgical skills"; and a blue box for "Behavior" with the text "Residents receive feedback on their professional behavior from attendings and other professionals they interact with". The background of the graphic shows two men in white lab coats looking at a screen in a clinical setting.

Knowledge

- *Knowledge Assessment*

- Orthopaedic In-Training Examination (AAOS OITE)
- **Goal:** Pass the ABOS Part I Examination

- Art

- Master a vast body of knowledge / Test a vast body of knowledge

- Science

- Blueprinting
- Item evaluation
- Standard Setting/Equating
- Linking AAOS OITE and ABOS Part I

Surgical Skill

- *Surgical Skills Assessment*

- Formative case-by-case assessment, providing useful feedback
- Increased resident responsibility in operating room
- Residents controlled program
- **Goal:** Pass the ABOS Part II Oral Examination

- Art

- Appropriate procedures and numbers of procedures
- What cases are important?
- Integrate with Case Logs

- Science

- Validated assessment tool

Behavior

- *Professional Behavior Assessment*
 - End-of-Rotation Assessments/360 Assessments
 - Useful feedback
 - **Goal:** ABOS Peer Review process throughout career
- Art
 - Identify and remediate
- Science
 - Validated assessment tool
 - Identifying outliers

What is the Requirement?

ABOS KSB Requirement

Beginning academic year 2025/26: **July 1, 2025**

Participation is required, not specific levels of achievement

Resident must meet ABOS participation requirements

REQUIRED

ABOS KSB Participation Requirements

ABOS KSB participation requirements that will be effective July 1, 2025, for those residents who wish to take the ABOS Part I Examination starting in 2026:

- **Knowledge**

- PGY 1-5
 - 3 OITE examinations completed

- **Surgical Skills**

- PGY 2-5
 - 80 completed assessments per year of residency education
- PGY 1
 - 12 completed assessments

- **Professional Behavior**

- PGY 2-5
 - 6 completed end-of-rotation professional behavior assessments per year
- PGY 1
 - 3 completed end-of-rotation professional behavior assessments

Requirement Summary

Exam Year	Requirements
2026	80 SS/6PB/0 OITE
2027	160 SS/12PB/1 OITE
2028	240 SS/18PB/2 OITE
2029 and Beyond	320 SS/24 PB/3 OITE

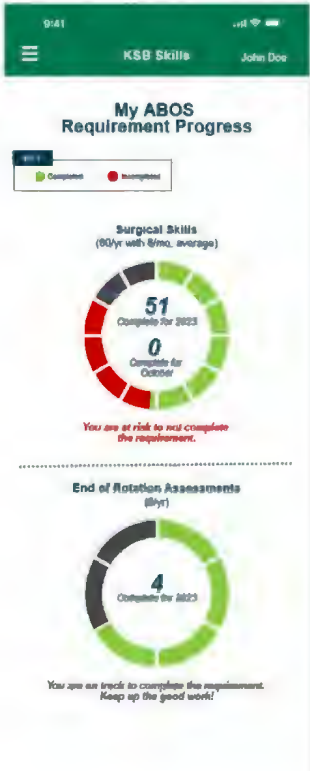

REMEDIATION PLAN:

Graduated orthopaedic residents who failed to meet the requirements to take the ABOS Part I Examination due to insufficient completed ABOS KSB assessments may reapply to take the examination the following year. They must complete the ABOS KSB requirements during their fellowship year or their 1st year in practice.

Purpose and Collaboration

The ABOS has collaborated with the Accreditation Council for Graduate Medical Education (ACGME) to integrate case log entry into the ABOS KSB web portal and mobile app.

- **Highly Recommend:**
Enter all Surgical Cases going forward on ABOS KSB+ App or ABOS KSB+ Web Portal.
- **No duplicate entry in ACGME ADS!**

How To Use:

Quick Guide and Tutorials

Important Notes

- ACGME ADS is still active for programs and residents to review reporting.
 - Case log data are available for ADS reporting within 48 hours of entry.
 - Do not wait until last minute to batch cases!
- Residents can modify any submitted case logs via the ABOS KSB+ app
 - Search Cases
 - Modify
 - Changes sent to ACGME. To request a KSB assessment, a case must be entered within 48 hours of the date of that case.

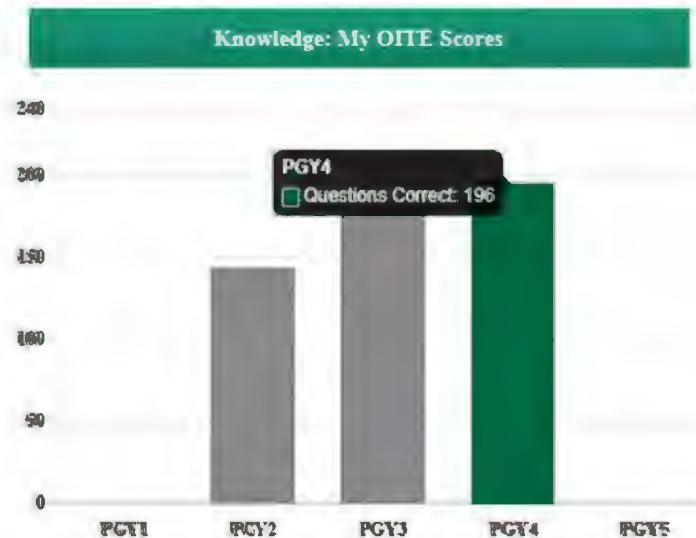

How It Works-Orthopaedic Knowledge

Measuring Competency

- Residents have access to their own ABOS Resident Dashboard that tracks their progress and displays their scaled Orthopaedic In-Training Examination (OITE) scores

AAOS OITE Year of Administration	Linking Score to ABOS Part I Pass Point
2020	169 (63% correct)
2021	182 (69% correct)
2022	181 (69% correct)
2023	165 (63% correct)

A green column indicates a score at or above the score corresponding to the minimum passing performance level on the ABOS Part I Certifying Examination. Click [here](#) for more information.

How It Works-Surgical Skills

Surgical Skills

1 Resident Requests Assessment

2 Attending Completes Assessment

3 Resident Receives Feedback

Completed *Surgical Skills* assessments are sent back to the resident in real-time.

Residents have 48 hours from procedure date to request assessment

8 Facets of Surgical Skills Assessments

1. Pre-procedure plan
2. Case preparation
3. Knowledge of specific procedural steps
4. Technical performance
5. Visuospatial skills
6. Post-procedure plan
7. Efficiency and flow
8. Communication

Don't need to be good in all facets prior to requesting and evaluation!

My Professional Behavior Evaluations

Program Name: University Hospital Program

Program Director:

Program Coordinator:

Evaluator Name: I

The University Hospital Program orthopaedic surgery residency program is participating in the Professional Behavior portion of the American Board of Orthopaedic Surgery's Knowledge, Skills, and Behavior (ABOS KSB) Program. Dr. I has requested your participation in this important national program.

Please click the resident's name to complete a brief Professional Behavior evaluation for each resident with whom you feel you are sufficiently familiar to evaluate.

If you are unable to evaluate the professional behavior of a specific resident because you have not worked with that resident, please do not complete an evaluation for that resident.

Thank you for your important contributions to residency education.

If you have completed evaluations during this session, please [CLICK HERE](#) anytime to reload this page to display new Completion Dates.

The American Board of Orthopaedic Surgery's mission is to ensure safe, ethical, and effective practice of orthopaedic surgery. The ABOS maintains the highest standards for education, practice, and conduct through examination, certification, and maintenance of certification for the benefit of the public. If you encounter behavior from a resident that is contrary to safe, ethical, and effective practice of orthopaedic surgery, please contact the Program Director or Program Coordinator of the Orthopaedic Residency Program at your institution.

John "JT" Doe 2023-24 PGY 5 Professional Behavior

Feedback:

08/17/2021 - Resident is consistently late, rude to staff, and does not listen to patients.

08/09/2021 - Not prepared

07/26/2021 - Ok but needs work

07/22/2021 - sdf

07/22/2021 - horrible

06/22/2021 - eh

06/16/2021 - They consistently used vulgar language. They never showed up on time for surgery, and I constantly had to monitor their behavior.

01/22/2021 - Type your feedback here.

ABOS KSB Milestones Chart

Patient Care 1: Operative Management of Fractures and Dislocations

Lower: Femoral Neck Fx

Faculty	Date	Rating	Feedback
	11/06/2021	5	Great job not only on the case but teaching it to the intern as well.
	06/29/2021	4	
	06/24/2021	3	Very nice job on the approach and room set up. You know the steps of the approach and handled them well. You will gain the independence needed to perform the more complex aspects (choosing final reaming/broach size, stem height, management of calcar bone loss) with additional repetitions of this procedure. Very good case management for this first week of PGY4 year. I appreciated you talking through your steps - it shows what you know and are anticipating in the case. Good work! Fully expect you will gain independence of such a case this year.
	06/20/2021	3	Dr. did a nice job with the technical execution of this operation. I would encourage him to more consciously direct the procedure at this level. For example, ask for the bed height to be raised, realize that drilling two of the holes but not all three is a wasted step, etc.
	05/31/2021	4	Great job with wire navigation and screw placement for femoral neck fracture

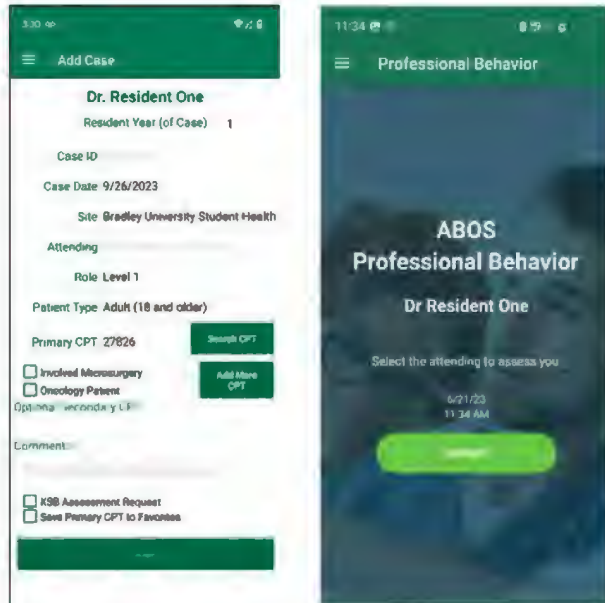

Conclusion

Website (www.abos.org/abosksb)

The screenshot shows the website for the American Board of Orthopaedic Surgery (ABOS) Knowledge, Skills, and Behavior Program. The browser address bar displays <https://www.abos.org/abosksb/>. A notification banner at the top states: "Diplomates who need to schedule an ABOS Subspecialty or Computer-Based Recertification Examination will receive an email when they are able to do it." The website header includes the ABOS logo, the text "American Board of Orthopaedic Surgery", and navigation links for "VERIFY CERTIFICATION", "LOGIN", and "CONTACT". A secondary navigation bar lists "About", "Residents & Programs", "Candidates", "Diplomates", "Research", and "Important Dates". The main content area features a large blue banner with the text "ABOS Knowledge, Skills, and Behavior Program". Below this, a breadcrumb trail reads "Home > ABOS Knowledge, Skills, and Behavior Program". On the left, a sidebar lists navigation options: "ABOS Knowledge, Skills, and Behavior Program", "ABOS KSB-Program Directors", "ABOS KSB-Program Coordinators", "ABOS KSB-Residents", and "ABOS KSB-Faculty". The main text area is titled "ABOS KSB Program" and contains the following text: "The American Board of Orthopaedic Surgery (ABOS) was founded in 1934 as a private, voluntary, nonprofit, independent organization to serve the best interests of the public and the medical profession. These interests are achieved through the ABOS by establishing standards for the education of orthopaedic surgeons. These standards are evaluated by the ABOS through examinations and practice evaluations." A solid blue horizontal bar is positioned below the text.
